## SENIOR SOFTWARE ARCHITECT

---

We are seeking a Senior Software Architect for our ITMS payment processing solution. The successful candidate will be someone who can think on their feet, understands scalable Web application design approaches that work, can provide solid technical leadership and can support projects through all phases from Requirements gathering, Functional and Design specification, Implementation, Deployment and Decommissioning.

### Key Responsibilities

- Participate with cross-functional teams of the user community and ITMS Product Management to gather system requirements, conduct impact analysis, design solutions and establish metrics for success
- Support documentation needs of the ITMS Software Development process and external Customer requirements
- Plan and direct studies of potential applications and prepare design proposals to reflect functional approach and effort
- Perform system decomposition and high-level Software design
- Develop test plans and protocols for evaluation of system performance
- Ensure that a maximally robust software architecture is developed
- Provide support to ITMS Operational group on technical issues
- Provide technical direction to Development team on an ongoing basis

### Qualifications

- 10+ years experience in the field of Business Systems and IT
- University Degree in Computer Science, Engineering or a closely related field or equivalent combination of education and experience
- Strong working knowledge of developing Requirements, Functional and Design Specifications as evidenced by 5+ years of experience
- Thorough knowledge of online database application development as evidenced by 5+ years of experience in application development including ASP.NET, Web Services, C#, MSMQ, XML, XSLT experience
- Strong technical experience with SQL databases
- Demonstrated ability to manage multiple projects and priorities to conclusion
- Demonstrated ability to effectively coach, develop and manage Application Programmers
- Excellent oral and written communication skills
- Experience implementing Online Image Archival and/or Electronic Payment Systems
